25X Attached is a draft received from Phil Habib of instructions for a high-level mission to Saigon which is now under consideration. The emissary will probably be Vance, or, possibly Clifford. The fact that this dispatch of an emissary -- another wave from [redacted] -- is under consideration should not go beyond you yourself.

I would appreciate your looking over these instructions and letting me have any suggestions or additions or improvements. It would be helpful if I could get preliminary thoughts before 1040 this morning. We will be working on these at State today and I will consult you in more detail this afternoon.
